Co-organized by the **Asian Forest Cooperation Organization (AFoCO)** and the **National Institute of Forest Science (NIFoS)** of the Republic of Korea, the Side Event will reiterate the contributions of forests and forestry towards achieving the SDGs and the importance of enhancing such contributions over the next decade. The Side Event will also explore ways for AFoCO Parties to engage in the testing of the global core set of forest-related indicators.

UNFF16 SIDE EVENT

Improvement on the Global Forest Goals (GFGs) Implementation: Streamlining forest-related reporting and developing methodologies for measuring performance
